

SPECIAL OFFER! • SPECIAL OFFER! • SPECIAL OFFER!

In 1976, we were **SILVER** Now, we are **GOLD!**

This year represents 50 years of Giuliano Automotive as a leading manufacturer of tyre equipment, still located in the heart of the Italian 'Motor Valley'.

But did you know our first models were launched under the name 'SILVER', before eventually reverting to the name Giuliano – a nod to its founders? In 2026, Giuliano Automotive remains owned by those original founders, and operated by the latest generations – a rare occurrence in today's widely corporately influenced garage equipment industry. To celebrate our 50th Anniversary, we have introduced some 'Special Edition' models of tyre changer and balancer, produced in an appropriate GOLD finish, with a

specification and price-point that makes them a genuine 'great value for money' offer. When we say value for money, this should not be confused with 'cheap'. Based on our conventional range, using the same premium quality components, this Anniversary Package simply includes additional features and extended warranty, ensuring you can benefit from this incredible milestone in the evolution and growth of Giuliano Automotive.
